> on our HHRA?

Hi Bonnie,

The information was put together by a contractor ATSDR hired (Claritas) and  
was overseen by one of our epidemiologists in ATSDR's GIS group (Dr. Janet  
Heitgard). I'm attaching the description that Janet wrote about the methods  
and data sources that Claritas used. If you have further questions please  
include Janet since she can provide more accurate answers than I can.

David
